

## U.S. National Strategy to Counter Antisemitism

### A guide for educators and schools

In May of 2023, the Biden-Harris administration released a [groundbreaking document](#) with strategic goals for a whole-of-society approach to combating the rise in antisemitism in America. It includes a wide range of roles that different departments of the executive branch of the federal government are called on to play. The White House strategy mobilizes responses across four pillars:

- Increase awareness and understanding of antisemitism, including its threat to America, and broaden appreciation of Jewish American heritage
- Improve safety and security for Jewish communities
- Reverse the normalization of antisemitism and counter antisemitic discrimination
- Build cross-community solidarity and collective action to counter hate
