The Power of Jewish Education

A CHANGING WORLD DEMANDS A BOLD NEW APPROACH

At The Jewish Education Project, we are acting decisively to shape the Jewish future through new ideas, cutting-edge technology, and deep partnerships. We are equipping educational leaders with innovative and fresh learning models, to bring vibrant Jewish experiences to their communities, schools, and homes.

Above all, we ensure every Jewish child emerges from their formative years with unshakable pride, a profound connection to Israel, and the courage to stand against hatred.

Navigating growing challenges, families and educators are asking urgent questions:

- How do we strengthen children's Jewish identity and pride?
- How do we confront antisemitism, bias, and misinformation?
- What meaningful connections to Israel can we cultivate?
- Where do we turn to find real community and belonging?

EDUCATION IS THE ANSWER.

WHY OUR WORK MATTERS.

Great education is the foundation of identity and continuity.

Our Vision

All Jewish youth and their families engage with meaningful learning, fostering pride, purpose, and the skills to thrive as Jews and in the world.

To achieve this, we strengthen educators in schools, camps, JCCs, synagogues, youth groups, and beyond.

WHO WE ARE.

The Jewish Education Project is the only organization dedicated to empowering educators in Jewish, public, and independent settings to address complex issues about the Jewish experience, Israel, and antisemitism.

We tackle the most critical issues facing our community by focusing on three core areas:

1. Cultivating Jewish Pride & Joy
2. Reimagining Israel Education
3. Combating Antisemitism with Education

HOW WE DO IT.

We make change happen by transforming how Jewish educators across the field learn, collaborate, and bring innovation to their communities.
